BCC Online Registration Tips:

1. Some people have registered for other people using their own credit card but registering under the friend's name. The system can't track this type of transaction, so if you do this as a favour to a friend who may be away and unable to access the internet, please email the club office so we can match the payment to the person. Putting a note in the comments section of the registration form isn't enough.

2. Once you are in the payment section there is a note in very small print at the bottom of the page that reads....

Click 'Process Transaction' to charge your card. Only click the button once. Using the 'Back', 'Refresh' or 'Cancel' button after you press the 'Process Transaction' button will not stop the transaction from being processed and may result in a double charge.

This note is very small, and inconspicuously placed at the bottom of the page, so it is easy to miss. It is not part of the BCC website, so we are unable to edit it. Please be sure you are aware of it before you start to enter your credit card information.

3. If you are registering two individuals on separate registrations, wait a few minutes to register the second one.....some credit card companies have flagged the two back to back transactions and not allowed the second one.

4. Know your security code. Most transactions only require the three digit code on the back of your card, but some have introduced another level of security. When you receive your card, you may have had to register a password. It may have been a while ago, and you may never have had to use it, but we have found that a few members have needed this code, so if you have one associated with your card be ready when you register.
